

GENERAL COMPANY INFORMATION

Prospector LLC Belgrade (www.prospector.rs) is a consulting centre specializing in Good Governance and Anti-Corruption. Established in August 2018, our consulting centre focuses on supporting the development and implementation of good governance and anti-corruption mechanisms and policies in the public and business sectors in the South-Eastern Europe region. We also assist interested faculties in designing and implementing education programs for students in these areas.

Our mission is to assist stakeholders (public institutions, companies, faculties, civil society organizations, and media) in South-Eastern Europe to develop appropriate policies and education programs in Good Governance and Anti-Corruption Areas.

Our team members have over 15 years of comprehensive professional experience in Good Governance and Anti-Corruption. During the past decade, we have been dedicated to providing support across the South-Eastern Europe region in:

- developing and improving policies, strategies, normative and institutional frameworks;
- developing, implementing and promoting preventive anti-corruption mechanisms, such as corruption risk assessment and corruption proofing of legislation tools (especially in specific areas/sectors such as public procurement, public administration, state enterprises, judiciary, local self-government, education, and healthcare); conflict of interest management for public officials and employees in the public sector; integrity, ethics and codes of conduct; whistleblowing and whistleblowers protection, and transparency and access to information; and
- designing and improving anti-corruption and integrity programs and measures in the private sector.

We have gained valuable experience in these areas through collaboration with central and local level institutions, international organizations, regional initiatives, business associations, companies, and development partners. These include the Agency for the Prevention of Corruption, Ministry of Public Administration and Local Self-Government, and Public Procurement Office in Serbia, as well as anti-corruption bodies or ministries of justice in Albania, Bosnia and Herzegovina, Montenegro, and North Macedonia. We have also collaborated with the United Nations Office on Drugs and Crime, United Nations Development Programme, Council of Europe, Regional Anti-Corruption Initiative, OSCE, OECD, Open Government Partnership, World Bank, EU IPA projects, USAID, Chamber of Commerce and Industry of Serbia, and Foreign Trade Chamber of Bosnia and Herzegovina. Furthermore, we have worked with numerous civil society organizations, such as Transparency International and its national chapters in all countries of the South-Eastern Europe region, the Global Initiative Against Transnational Organized Crime, U4 Anti-Corruption Resource Centre, SELDI, National Convention on the EU (Serbia), Belgrade Centre

for Security Policy, Institute Alternativa (Podgorica), and Institute for Democracy "Societas Civilis" Skopje.

Prospector LLC Belgrade offers a range of services based on the professional experience of our team members, including:

- Supporting public, business and civil sector beneficiaries in developing policies, procedures, and measures to reduce irregularities, strengthen efficiency and integrity, and assess the impact of these measures;
- Assisting competent authorities and business associations in developing studies, guidelines, manuals, and model acts focused on strengthening efficiency and integrity and implementing anti-corruption mechanisms;
- Assisting in the development of strategic documents, policies and regulations related to public administration reform and judicial reform with a focus on strengthening integrity, transparency and accountability, and implementation of anti-corruption mechanisms;
- Assisting competent authorities in developing and improving methodologies on Corruption Risk Assessment, Corruption Proofing of Legislation and Impact Assessment of regulations in Southeast European countries;
- Conducting assessments and research analyses on normative and institutional frameworks and practices in corruption-prone sectors, areas and processes in the public sectors of South Eastern European countries;
- Designing and conducting specialized educational programs on topics related to Good Governance, Anti-Corruption, Ethics and Ethical Leadership for institutions, companies and civil society organizations in South Eastern European countries;
- Supporting interested faculties in designing and implementing education programs for students.

As of 2018, Prospector LLC and its members have performed numerous research tasks that involved the development of methodologies for implementing anti-corruption mechanisms, evaluation research, application of different qualitative and quantitative research methods, data analysis, identification of findings, and production of tangible recommendations. During this period, we also contributed to drafting strategic documents, action plans, model regulations and acts, and other similar documents. Furthermore, we have designed and conducted a series of training sessions and educational programs for students, public sector representatives, business professionals, and civil society organizations on topics such as Understanding Corruption and Anti-Corruption Approaches; Universal and Regional Standards in the Fight Against Corruption; Development and Implementation of the Corruption Risk Assessment and Corruption Proofing of Legislation; Anti-Corruption Programs for Companies and Business Integrity; Conflict of Interest Management, and Whistleblowing and Protection of Whistleblowers.
